If, by the materials deadline, the Publisher has not received copy deemed acceptable for publication, the Publisher may either repeat the advertiser's most recent advertisement that it has published or publish nothing, charging advertiser and/or advertising agency for any space reserved by them. The Publisher reserves the right to refuse any advertising and shall not be liable for damages if for any reason we fail to publish an advertisement.

SPECIFICATIONS

Printing Process: Heat-set web offset

Binding Method: Saddle-stitched publication

FILE FORMAT

Print-ready PDFs are preferred; also acceptable are InDesign, Illustrator, Photoshop, EPS, or TIFF files with all supporting layout files, images, and fonts included. Macintosh-originated files preferred. We may not be able to accept or alter Windows or non-standard file formats.

IMAGES, CMYK AND EPS FORMAT

Images must be CMYK and 300 dots per inch at final placed size. All spot/PMS colors must be converted to CMYK by the advertiser. If not, the Publisher will do so and bear no responsibility for color shifts. Do not exceed density of 300% of all four colors in any area.

WHAT TO SEND FOR FORMATTED ADS

Images should be at least 3.25" horizontal by 2.75" vertical (for a quarter-page) at 300 dpi. If cropping is necessary in order for the image to fit the format, TMCP will crop using its best judgment unless cropping instructions are provided by the advertiser. To maintain a consistency of style and reduce advertising costs, TMCP will format all text and lay out all ads according to a pre-established format. We regret that we cannot accept requests to modify this format. If more words than the required number are submitted, TMCP will use its best judgment in cutting copy to fit the space allowed. Logos will be sized to fit. Be sure to supply the correct materials and clear instructions, if necessary. Screenshot proofs available on request only. Please contact your sales representative if you have any questions about materials.
